By Tali Lehari

Createspace, United States, 2010. Paperback. Book Condition: New. 252 x 202 mm. Language: English . Brand New Book ***** Print on Demand *****.Enter the world of Planet Heart, (tm) where birds fly in thrilling heart patterns in the sky and fish swim in colorful heart choreography that mimics the flowers, seeds, and even freshly picked Hearticles. This coloring book introduces most of the heartastic elements from the stories of Lovelle s Garden and Planet Heart. (tm) Color in, connect the dots, and explore other basic activities in black and white illustrations of the flowers, butterflies, popsicles, and happy Heartlings. In Planet Heart, the flowers are happy because they grow in a healthy environment, the Heartlings(tm) are polite to each other, and children eat healthy food. The designs to color are made 100 completely from hearts. The hearts are rotated geometrically along an x-y-z axis, so children observe mathematical relationships as they draw beautiful patterns. The book is organized so that similar patterns are offered in a variety of levels. This is a great introduction to the X-Y-Z Heart Mandala Challenges(tm) that follow in this series. The book is great for home use, classroom, or travel.
