Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from Semicentennial Publications The Semicentennial Publications of The University of California are offered as an expression of some of the more notable scholarly and literary work of the University. Part of these publications represent important current activities in various departments; others are distinctly monographic in character, and are the results of long-continued investigations which have been carried to conclusions within the semicentenary year. Work on some contributions was necessarily suspended by reason of war conditions, but all the publications included in the following pages are either completed or nearing completion. These publications, of course, do not include the whole of the scholarly work of the University within the last years of the fifty-year period, for the University has also continued to issue its regular series and memoirs, while members of its Faculty have published text-books and other works not falling within the scope of the University's established series. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work.
