Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Registering Titles to Land: A Series of Lectures Delivered at Yale The system of registering title, originally introduced in Germany in 1722, and afterwards(1857) independently worked out into practical form by Sir Robert Torrens for South Australia, has been now adopted by three of the United States - Illinois, Ohio and Massachusetts. Some of its features have already become, and others soon must be, the subject of judicial decision in our courts. (See People v. Chase, 165 Ill. 527; State V. Guilbert, 56 Ohio St. 575; People v. Simon, 176 Ill. 165; Tyler v. Judges, - Mass. -, 55 N.E. R.812.) The purpose of this work is to state the general history of public registration of land titles in other countries, and the merits of this system as compared with that of recording the conveyances under which title may be claimed. The author has made the subject a special study for years, and the results were summarized in a course of lectures delivered on the William L. Storrs foundation before the Law Department of Yale University, in April, 1900. These are given in this volume substantially in their original form. Dr. Dumas has also published on this subject a brief article in the Revue Politique et Parlementaire for September, 1898, entitled Le Nouveau Regime de Publicite des Droits Reels en Angleterre, and other articles on the same subject in the Revue d Economic Politique.
