Reviews

It is just one of the best publications. This can be for anyone who states that there was not a well worth reading through. Once you begin to read the book, it is extremely difficult to leave it before concluding.

DATE-ONOMICS

Workman Publishing Aug 2015, 2015. Taschenbuch. Book Condition: Neu. 208x141x22 mm. Neuware - How to explain the college and post-college hook-up culture Why are there so many wonderful single straight women who can't find a man to date, let alone marry How can this be, when at birth there are more boys than girls Business journalist Jon Birger explains it all, in this mesmerizing and surprising interpretation of demographic data. The pill, Title IX, the changing job market, the souring economy, the social and psychological advantages that little girls have in elementary school; all these things have contributed to soaring college admissions for young women . and diminished chances that these same women will find long-term heterosexual relationships. Full of anecdotes, startling statistics, and witty insights, DATE-ONOMICS will be the dinner party topic for months and years to come. 220 pp. Englisch.
