BEYOND CERTIFICATION

Sedition Publishing T/A Do Sustainability, United Kingdom, 2015. Paperback. Book Condition: New. 206 x 145 mm. Language: English . Brand New Book. Is certification the solution? Can it deliver urgently needed improvements to complex problems like deforestation and the exploitation of people? Certification emerged from the 1992 Rio Earth Summit amidst great hope. Since then, despite a proliferation of certification schemes in twenty-five industry sectors, the destructive and irresponsible exploitation of natural and human resources has grown still worse. Beyond Certification reviews the positive aspects of certification, of which there are many, but argues that we can no longer afford to gloss over its failures. The book offers an alternative model, VT-TV, based on Values, Transparency, Transformation and Verification, which the author has been exploring and implementing with over 70 companies and industries around the world. Mining companies are also exploring this approach, and making decisions aligned with fundamental values and what they know to be right. The results? Trust is emerging as former combatants awake to the importance of working together. Guns have been removed from forests, land set aside for protection, worker rights and conditions improved and long-standing conflicts have been resolved as people confront their legacies. Beyond Certification does not claim that this VT-TV model is the only solution. Rather, it shows how new and seemingly radical thinking can catalyze positive change. Included: The limits of roundtable certification illustrated with real, practical examples The intricacies of the...
